

## **ORIENTATION TO HEALTH AND SAFETY**

Regional West Medical Center School of Radiologic Technology will orient students to health and safety within the healthcare environment before assigning them to clinical areas.

Responsibility: Program Officials

Standard: Human Resources

---

Students will be oriented to the health care environment prior to clinical assignments. A variety of orientation mechanisms are utilized including but not limited to:

1. Students entering the Program will attend the first available Regional West Health Services employee orientation program and complete the required online training and testing.
2. Complete review of Student Handbook and location of Program Policies in course 200 Introduction to Technology course.
3. Complete the basic patient care portion in course 210 Patient Care course.
4. Complete a Basic Life Support (CPR & AED) course.
5. Complete student orientation programs as required for all clinical education settings as applicable.
6. Complete imaging department specific orientation at all clinical education settings as applicable
7. Complete the MRI safety instruction and MRI screening form.
