REGIONAL WEST HEALTH SERVICES-FINANCIAL ASSISTANCE POLICY PLAIN LANGUAGE SUMMARY

Regional West Health Services Financial Assistance Policy/Program (FAP) exists to provide eligible patients, partially or fully discounted emergency or other medically necessary healthcare services provided by Regional West Health Services hereinafter referred to as "RWHS." Patients seeking Financial Assistance must apply for the program, which is summarized herein.

Eligible Services-Emergency or other medically necessary healthcare services provided by RWHS and billed by RWHS. The FAP only applies to services billed by RWHS. Other services, which are separately billed by other providers, such as affiliated or non-affiliated physicians or independent laboratories, are not eligible under the FAP. For more information on providers who are and are not subject to the FAP see the FAP or, for a list of providers who are or are not subject to the FAP, contact the RWHS Financial Assistance Specialist Team at 1-833-661-1846, email FAST@rwhs.org, or visit <https://www.rwhs.org/about-your-bill>.

Eligible Patients-Patients receiving eligible services, who submit a complete a Financial Assistance Application (including related documentation/information), and who satisfy the current income guidelines set forth in the FAP are eligible for Financial Assistance by RWHS. Eligible Persons are eligible for Financial Assistance, when their Family Income is at or below 400% of the Federal Government's Federal Poverty Levels (FPL). **Eligibility for Financial Assistance means that Eligible Persons will have their care covered fully or partially, and they will not be billed more than "Amounts Generally Billed" (AGB) to insured persons.**

Financial Assistance levels, based solely on Family Income and FPL, are:

- Family Income at 0 to 400% of FPL - Full Financial Assistance; \$0 is billable to the patient
- Family Income greater than 400% of FPL - Partial Financial Assistance; AGB is maximum billable to the patient

Note: Other criteria beyond FPL are also considered (i.e., availability of cash or other assets that may be converted to cash, and excess monthly net income relative to monthly household expenditures) which may result in exceptions to the preceding. If no Family Income is reported, information will be required as to how daily needs are met.
